- SAP processes your Personal Data for the purpose of ensuring an adequate level of technical and organizational security of SAP's products, services, online events, facilities, and premises. For this, SAP will take the measures necessary to verify or maintain the quality and safety of a product or service which is owned, manufactured by or for, or controlled by SAP. - SAP and its products, technologies, and services are subject to the export laws of various countries including, without limitation, those of the European Union and its member states, and of the United States of America. Applicable export laws, trade sanctions, and embargoes issued by these countries oblige SAP to prevent organizations, legal entities and other parties listed on government-issued sanctioned-party lists from accessing certain products, technologies, and services through SAP's websites or other delivery channels (e.g. the European Union Sanctions List, the US sanctions lists including the Bureau of Industry and Security's (BIS) Denied Persons Lists (DPL), the Office of Foreign Assets Control's (OFAC) Specially Designated Nationals and Blocked Persons List (SDN-List) and the US DOCs Bureau of Industry and Security's Entity Lists and the United Nations Security Council Sanctions). When ensuring compliance, SAP processes your Personal Data if and to the extent necessary to fulfill legal requirements under European Union or EU Member State law to which SAP is subject, and laws and regulations extraterritorial to the EU (legitimate interest to comply with extraterritorial laws and regulations).
